Subject: [Pilots] Plane listing

The planes listed in Green are in service. And the airport is open.
 lavender = airport condition unknown.

To all NJW pilots,

To help you find a plane to fly, these are the CAP planes in NJ with their status and location. Any current CAP pilot may use any of these CAP aircraft that they are checked out in (C-172 ,C-182RG, C-182T, Maule or C-182T G-1000).

The information here is only as good as the reports received at the time it is posted. Every effort is made to keep aircraft status information current. As PIC you are still required to check all airport NOTAMS.

Reported MISSION STATUS as of this mailing
 (CPF=CAP Flight)

NJ planes:

136CP (CPF2936) VAY 100 HR
17NJ (CPF2917) 47N
18NJ (CPF2918) MMU
19NJ (CPF2919) VAY
23NJ (CPF2923) MMU VAY 100 hr
355CP (CPF2955) SMQ
941CP (CPF2941) TTN
63312 (CPF2912) TTN
99480 (CPF2980) N12 VAY 100 hr
5742S (CPF 2942) glider 1N4
NER plane:
7556Y (CPF9156) TTN
732NS (CPF 9132) VAY
613CP GA-8 TTN

The Maule and the R-182 and C-182 G-1000 are a separate check rides but can be done as an upgrade. It is strongly suggested that each member do familiarity training before you go for a check ride. You cannot do your CAPF 5 with the CAP CFI that you flew with while doing your familiarity training.

Please note the information on our NJW glider if you are interested in getting your glider license.
